Product novelty: Bar cart

## **Robbe & Berking's new icon of bar culture: a handcrafted bar cart in fine thermo-ash**

With the Robbe & Berking bar cart a piece of furniture enters the stage that has celebrated a great comeback worldwide in recent years. The double-decker bar cart, enthroned on large wheels, is handcrafted by the master boat builders at the Robbe & Berking Classics shipyard in dark thermo-ash and the upper tray reminds of the teak deck of an elegant yacht.

No matter whether it is decorated with art books, plants or small objets d'art; decked out with fine whiskey, cognac and the relevant silver tumblers or used as a serving trolley with crockery and dessert - the bar cart skilfully sets the scene for any occasion and quickly becomes the centre of any conversation. Home bar and centrepiece in one!

The bar cart from Robbe & Berking not only fulfils bare functions, but also tells entire stories: about the place where it was made, where it was bought, about design and noble materials, and of course about the host who skilfully stages the bar trolley.

**Robbe & Berking World:**

Silver is a metal whose beauty has fascinated people for thousands of years. Throughout all cultural epochs, this highly lustrous metal has inspired artists to create something everlasting. Today, the pieces of the **silver manufactory Robbe & Berking** ([www.robbeberking.com](http://www.robbeberking.com)) are considered by connoisseurs all over the world as unsurpassed masterpieces of silversmithing and are a synonym for highest quality made in Germany. The silver manufacturer Robbe & Berking is a family business founded in 1874, now run by the fifth generation. To this day, it is the silversmith's hand alone that determines the quality of each piece and not the limited possibilities of rational mass production. This has made the manufactory the largest producer of silver cutlery in the world. The collection consists of over 4,000 silver and silver-plated pieces, which are used to furnish restaurants, hotels, residences and embassies, cruise ships, aircrafts, private yachts and much more all over the world, in addition to private households. In more than half of the world's 200 largest private yachts, silver from Flensburg can be found on the tables.

In 2008, the shipyard **Robbe & Berking Classics** ([www.classic-yachts.com](http://www.classic-yachts.com)) was founded, which today includes a yacht broker, its own **Robbe & Berking Museum** and the world's largest yachting library with almost 10,000 antiquarian books and magazines. Since its foundation, more than 10,000 lovers of classic yachts have been welcomed at Robbe & Berking Classics. The shipyard already rescued several famous racing yachts in the metre classes and either restored or rebuilt them. Researching lost yachts and their original construction plans is one of the important tasks. At the same time, the shipyard also builds newly designed yachts – cruisers, racing yachts, motor boats, tenders and dinghies.
